

## REACH MILLIONS. ENGAGE YOUR IDEAL AUDIENCE.

**SCARE FM** is a globally syndicated Internet Radio Show / PodCast.

Our listeners have an insatiable appetite for fresh radio content and technology.

We know what our audience likes, what they want, and what they need. We use this knowledge to connect them to content, brands, and services they're actually interested in, making these connections more meaningful and more powerful.

Find out how SCARE FM can help your brand connect with millions of eager consumers ...

SCARE FM is heavily content-oriented, with a format designed around constantly feeding our users new and fresh material. This allows our advertisers to reach our audience in a variety of different ways.

Almost every page on SCARE FM has a number of locations where approved ads are displayed. These ads are made highly visible throughout the site, as they are often used to inform users about upcoming events, new content and special deals.

**VIDEO ADS** - SCARE FM advertisers also have the option of running video ads on our site players. These players are used to play video content (e.g. TV episodes, etc.) and also to inform users about new content, upcoming events, and deals, making them an integral part of the user experience. Video ads are played intermittently with normal site content and are usually under a minute in length ... at NO ADDITIONAL COST to our advertisers who choose our YEARLY advertising plan listed below for \$850.00
